

Portable Dehumidifiers

Humiscope

Not everything is resilient to environmental fluctuations. Sometimes you need to master your indoor environment.

Portable Refrigerant Dehumidifiers Commercial Grade - Refrigerant 410A

These small, light weight portable dehumidifiers are highly efficient and perfect for construction, flood restoration, storage and drying room applications.

Compact Modular Portable

Compact design for crawl space

Upright Pedestal Portable

Large semi-pneumatic wheels

01

Capacity

up to 70 litres p/d at
30°C - 80% RH
up to 45 litres p/d at
27°C - 60% RH

02

Settings

Automatic defrost
and humidity setting
function range:
10% RH to 90% RH

03

Drain Hose

Water automatically pumps
out with built in condensate
pump. Long drain hose and
vertical height

**Both units \$2,000ea
+ GST + Delivery**

Portable Refrigerant Dehumidifiers

These robust, premium quality units remove a large volume of water per day and work effectively and efficiently in both small and large rooms.

Key features BOTH units offer

Refrigerant	410A
Unit Size (mm)	610W x 338L x 497H
Net/Gross Weight (kg)	34/37 kgs
Air Circulation	390m3 / hr
Power Supply	240V / 50Hz, 10 amp plug
Drain Hose Length	5 mt
Drain Pump Height	4 mt

Refrigerant	410A
Unit Size (mm)	602W x 576L x 875H
Net/Gross Weight (kg)	41/46 kgs
Air Circulation	656m3 / hr
Power Supply	240V / 50Hz, 10 amp plug
Drain Hose Length	5 mt
Drain Pump Height	4 mt

Portable Refrigerant Dehumidifiers

These portable units have built in powerful, heavy duty, internal pumps. Giving you the freedom to drain water anywhere.

Built-in Heavy Duty Pump

Drain Vertical Height - 5M
Hose with quick fitting connector

Rough Roto Moulded Housing

Durable and sturdy
for years of use

We used two dehumidifiers for a month to restore my parents home following the recent devastating floods. The service was friendly, responsive and lovely. The units have been the best thing ever. They literally restored our home and made it livable again! Thank you Humiscope for your kindness and helpfulness.

— Shelly Joyce via Google reviews

With over 35 years' experience in dehumidification technology, it's safe to say we know our stuff.

Who we are

We are a group of engineers, technicians and draftsmen dedicated to our clients and committed to providing energy efficient indoor environment systems; from simple applications to specially engineered solutions.

Our products

Desiccant Dehumidifiers

work by passing air through a rotating desiccant wheel to extract moisture from the air. They achieve relative humidity levels below 35% and have proven themselves to reduce both operating costs and energy consumption.

Refrigerant Dehumidifiers

work best in spaces where the temperature is at 20°C and above and humidity levels of 50% and above. They work on the humidity of the room and run when the humidity is above its set point.

Humidifiers

add moisture to the air. Humidity has a significant influence on the rooms climate and thus has a great influence on the well-being of people or on the stability of industrial processes that take place in the room

'We are very happy with the outcome. Drying times were reduced by 50%. Essentially we created our own climate' ~ Peter Schulte, Managing Director, Schultes Meat

Our services

Design and Installation

We are experts in designing, building and installing state-of-the-art climate control systems from simple applications to specially engineered solutions.

Rentals

Whether the application is a temporary project or being able to test the technology before investing, renting is a risk-free option.

Service & Maintenance

With over 35 years' experience we are able to service any brand dehumidifier regardless of make or model. We can identify where improvements can be made.

'I just want to say a big thank you for your efforts and help in getting the rental dehumidifier to Narrabri, especially given the flood situation. ~ Neil Rattray, Supervisor, BSA
